## **Murder Victim Memorial Posters**

Homicide survivors have constructed a huge memorial board, and they display it at events during the year, such as executions, Victims' Rights Day at the Capitol, etc. in an effort to show support for other survivors. If you are or know of a homicide survivor who would like to contribute a display board memorial to the victim(s), please prepare your memorial on a 20" x 30" foam board poster. Any color and anything you want to put on it will be fine, however nothing obscene will be displayed. Some of the boards are laminated, but they do not have to be to be displayed. Unless you make other arrangements, all boards given to the group will be kept and used indefinitely.
